

ALLCARE™ BED

FLOOR HEIGHT

3.6" floor level height (around the width of a smartphone)

Enhances safety, simplifies equipment needs, and its easy on staff

Falls Risk – Floor level (3.6" low height) with optional floor mat and alarm system to address high risk resident falls

Bariatric Dignity - Provide bariatric residents the same equipment (42" wide/600lb capacity) utilized throughout your facility.

Custodial Care – Enhance resident comfort (42" width) and height (up to 30") to take care of custodial residents.

Short Term Rehab – advanced features (cardiac chair positioning, trend/reverse trend), optional scale, optional bed exit to manage higher acuity residents.

Standardization - Improve staff training as well as maintenance with **ONE** bedframe solution across your facility.

Industry Leading Warranty – Made in the USA with a best in class warranty (lifetime on the welds, 15 years on the frame, 5 years on the Linak motor/drive system)
